

Introducing a better way for you to buy almond hulls. Until now, you've had to spend valuable time on the phone trying to locate a huller who is actually available to talk and who is ready to make a sale. Or, tell a marketing group representative what you are willing to pay and hope that your marketing plan isn't spread too widely.

We are providing an active trading floor located on the internet where you can go to find active offers throughout the State, by county. You will be given a chance to make a counter-offer without your identity made known to the huller. You will also be able to see counter-offers made by other buyers in the market (no names attached). If a buyer agrees to the price, shipping period, payment terms and quality description, AlmondHulls.com will then write up a witness contract and send a copy to both the buyer and seller. If no one accepts the offer made by the huller, the huller will be given a chance to accept the best counter-offer or reject all counter-offers. It will be up to the huller to set the time period that their offer is made available on the web trading floor.

This service will also allow you to rate the hullers you do business with in the following areas:

- 1) Ease of picking up the load.
- 2) Quality of product.
- 3) Overall trading experience.

These ratings will be summarized and attached to each of the huller's offerings.

What will this service cost you? Nothing. It is totally funded by the hullers. What I'm asking you to do is to register with us as a buyer so that you will be able to log on to the web page and see for yourself how this works. If you would like more information contact us at:
